**To:** [REDACTED]  
**Subject:** This is so scary!!

We don't know what is going on here. The warden came in to the camp and announced that as of today Dublin is closing and that we are ALL being transferred to other prisons!!  
That is crazy. I am too sick to transfer anywhere right now and I am supposed to be an immediate release. I also thought Judge Gonzalez issued an order NOT to transfer me anywhere but home?  
Can we get a restraining order if they try to transfer me somewhere?  
I'm really scared that I'm going to be stuck in a detention center somewhere and not be able to get my release processed. Warden McKinney just told me that my release would be processed before the 1st of the month but now I am going to be transferred somewhere? And stuck! This is total retaliation! My outdate is past due!!

Is this coming from the Judge/Special Master?  
Or is this the BOP reacting to having the Special Master and trying to avoid letting someone else have control over them? And more importantly not allow them to do any more digging into what they've been up to?  
This is so sad everyone's anxiety and PTSD is through the roof right now!  
Poor [REDACTED] is crying. She is really scared of being shackled and going somewhere away from her family. I hate that they can do this to us after everything they have already done.  
I understand this place needs to be closed but there is a better way...and campers and especially victims need to go home.

I know you are all doing your best.

Thank You!

Hello.

I am an inmate at Dublin FCI.

I arrived in July of 2023 on an aggressive drug sentence of 121 months courtesy of the state of Texas.

I was handed a green army bag yesterday and told I had get rid of almost all my property then they called a different group to leave today and I am watching them get packed out now.

I arrived in July of 2023, in the aftermath of all the situations.

I watched my old roommates, [REDACTED] and [REDACTED] receive immediate release.

I saw the contact information for you guys posted yesterday by the special masters.

Let me know what further you need from me or what is in my best interest to do.

I have never been in a situation like this, this prison has been the most unorganized, unprofessional, irrelevant, and negligent experience I have ever been forced to participate in.

Hello,

I just wanted to reach out to you regarding the class action lawsuit against Dublin FCI. Case No. 4:23-CV-4155-YGR

My name is [REDACTED]

I am supposed to be released to a Halfway House in [REDACTED] as of next month. However, in the shut down, I am being transported somewhere probably much further away from [REDACTED] than Dublin. I have been Camp Status for many months, but was told that because my sentence was so short, I wouldn't go to Camp. For the past 6 months, I have been fighting to have my FSA credits and my good time applied to my release date, which hasn't been changing as it should. Had these been applied, I would have gone to the Halfway House even sooner than this, and now, I have no idea where I'm going, but it's not to the Halfway House.

There is so much more I can say and I would be happy to issue a statement, if need be.

Thank you so much for taking this on. You are appreciated,

I am literally traumatised from the trip here two years ago and how we were housed and showering outside in a porta potty and I am terrified about leaving to go some place else. This is so inhumane these conditions and this we are moving and then not and then moving. They ar tossing all our stuff not even letting us send our stuff out. I am sorry I am just venting I feel I have no one to listen to me and really hear me. The only good thing is I wont have to be abused anymore when I go some place else. I hope! Please let me know if you have any questions.

Hello [REDACTED] I want to first thank you all for the hard work that is being done our behalf. So I just got called to the counselors office a few mins ago for them to tell that I will be shipped out to another institution. I am scheduled to be released on Tues the 23rd I have my travel plans and everything but now they are saying that I will be sent to the next institution and I will have to go through the process of getting teamed and medically cleared to go to the next institution. This is Krazy I havent gotten my medication for my thyroid all wiik I have put in a refill since last thursday, I keep going everyday to see if they refilled it and they keep telling me that it shows in the computer I put my refill in that it will get refilled when it gets refilled. These people just dont understand that our health is important too.

Subject: another day

to get cleared for medical so you can transfer, this place is only taking people's vital signs and approving them with that, not reviewing medical history and current needs with a real doctor.

inmates who packed out their property were then called to medical, last night they told all other inmates the process that they had to go through and they were taken this morning to leave this prison compound.

Hola [REDACTED] buenas tardes.

[REDACTED] Yo soy del Grupo de personas que me subieron al camion el dia Lunes, desde ese dia nos estan dando largas para saber que paso con nuestra propiedad, nos mandaron de vuelta a la unidad sin tener nisiquira lo basico, que es jabon, cepillo de dientes, pasta dental, el dia que nos revisaron y nos desvistieron me hicieron quitarme y ponerme un tampon delante de la oficial estaba escurriendo sangre y no tenian ni papel higienico para que pudieron limpiar y mucho menos lavarme las manos, no me dieron ni una toalla sanitaria para el camino, me regresaron a la unidad y solo me rieron un calzon, ya es jueves y no me han querido dar mas y tampoco me quisieron vender. Me hicieron sentir tan vulnerable, tan poca cosa, no nos estan ayudando de ninguna manera de obtener una oportunidad de volver pronto a casa. Espero que usted me pueda ayudar. De antemano mchas gracias.

**Subject:** EMERGENCY

[REDACTED]

I left you a voicemail message. The BOP is attempting to get [REDACTED] and I medically "cleared" to be transported immediately to another BOP institution (allegedly we are slated to go to Pecan, Illinois, when I live in San Diego, California!)...I am NOT medically OK to travel via BOP transport -- I should be sent on home confinement and/or granted compassionate release by the Special Master. [REDACTED] and I haven't even been interviewed by the Special Master's doctors as her assistant, Ms. Malone, said we would be (in fact, Ms. Malone has told me twice that I am on a special "short list" of people to be interviewed by the Special Master's doctor to confirm I can't be transferred to another BOP facility).

Please help [REDACTED] and I as we are both victims of sexual assault and have severe medical issues (my heart condition still has NOT been treated and we both know that BOP facilities are incapable of treating my medical and mental health conditions...not to mention I don't know whether my perpetrator was transferred to the facility to which I am being transferred).

Can you get a hold of Wendy Still and beg her to put a "stay" on our transport.....we should be going home on home confinement or compassionate releases. This is just another retaliatory action by the BOP against VICTIMS. :(

Thank you, [REDACTED]

Subject: Shipping campers!!

So 17 campers were just given SHU bags and told to pack and that they are being shipped today. They are supposedly going to Pekin, IL. A lot of them have compassionate releases that have not been reviewed yet AND many of them have medical issues. They have NOT been medically cleared yet. The medical computers just 'went offline' right when they were lined up to get cleared. So they gave them bags anyway and told them they are leaving today. Apparently this is there way of getting around the Judge's orders.

Subject: IMPORTANT

To whom it may concern,

As you know [REDACTED] it's chaotic here at dublin every hour. The anxiety level is in high alert. The first group that left some of the inmates were not medically cleared, the feds don't even know what and how to do things. We are already packed some get sent to medical for clearance, dressed and then sent back to the units. We are treated as animals and are not even allowed to use the restrooms during clearance. Today one dublin officer said, "it's your guys' fault that dublin is closing."

[REDACTED] Some of us are not even cleared to leave but, yet we are rolled out and with our bought property being thrown out eventhough we are told we can take certain items. I don't see where the proffesional planning is coming from some of us are depressed as it is and it is nerve recking not knowing what is going on.
